Sunsuper expands Investment Management capability

Sunsuper has grown its investment management capability with two new appointments to the Fund's Investment team.

Alastair Sloan has been appointed to the role of Dynamic Asset Allocation Manager and will be responsible for medium term tactical asset allocation. Greg Barnes has taken on the role of Listed Shares Manager and will be responsible for Sunsuper's listed equities portfolios.

Sunsuper's Chief Investment Officer said the time was right for the Fund to build on its existing investment management capability and look at new ways to add value for the Fund's members.

"Sunsuper has a great track record of investing members' money to effectively meet their needs and we already have successful investment programs in operation," said Mr Hartley.

"We believe that other sources of added value can come from being more dynamic in asset allocation and also looking more broadly in listed shares.

"Alastair and Greg bring with them a wealth of experience to complement our existing team and these appointments best position Sunsuper to pursue additional sources of returns for our members."

Alastair Sloan has more than 27 years' investment management experience at NAB, Red Centre Capital, Deutsche Bank, Bankers Trust, Macquarie Bank and most recently at Sydney Cove Capital. He has held roles in Sydney, London and Singapore. In his role as Dynamic Asset Allocation Manager, Mr Sloan will work with appointed managers and asset class specialists to identify medium term investment opportunities.

Greg Barnes has more than 25 years' experience in a range of equities and asset management roles at JP Morgan, AMP Capital, NSW State Super and Imprimatur Capital. His global career has seen him work in London, Hong Kong, Sydney and most recently as Chief Executive Officer of RHB OSK Asset Management in Singapore.

Mr Sloan joined Sunsuper in mid-August and Mr Barnes will join Sunsuper on 19 September.
